

Are You Prepared?

In Advance - August 2019

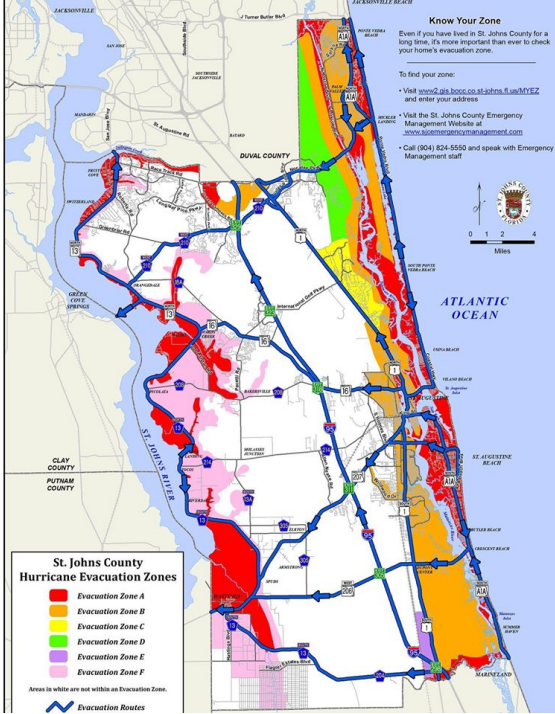

Shades of Hope

As we all wait anxiously for news of the approaching Hurricane Dorian, we'd like to share an uplifting photo captured by the staff at Meehan's Irish Pub last night in St. Augustine.

Thank you for sharing! No matter what may come, we know our communities in St. Johns and Flagler counties are resilient.

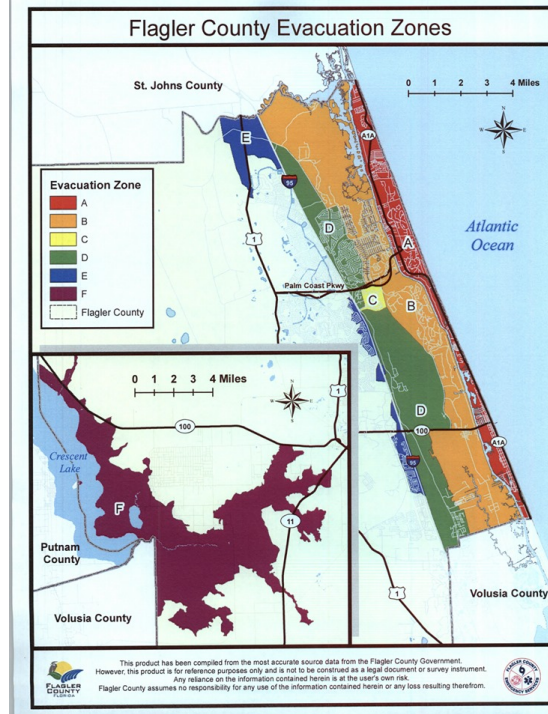

Please take a moment to thank those working today, tomorrow and through the storm.

Officials in St. Johns County are closely monitoring developments ahead of the storm.

We encourage you to visit [St. Johns County Emergency Management](http://www.stjohnscountyfl.gov/emergencymanagement) for details and information on advisories.

Flagler County officials are also closely monitoring the situation.

Please visit [Flagler County Emergency Services](http://www.flaglercountyfl.gov/emergencymanagement) for the latest updates and information.
